MASTER OF SCIENCE THESIS

For obtaining the degree of Master of Science in Mechanical
Engineering at Delft University of Technology

N.N. Vo

January 14, 2017

The work in this literature survey was supported by Alten. Their cooperation is hereby gratefully acknowledged.

DELFT UNIVERSITY OF TECHNOLOGY
DELFT CENTER FOR SYSTEMS AND CONTROL

The undersigned hereby certify that they have read and recommend to the Faculty of Mechanical, Maritime and Materials Engineering for acceptance a thesis entitled “**Title**” by **N.N. Vo** in partial fulfillment of the requirements for the degree of **Master of Science**.

Dated: January 14, 2017

Supervisor:

dr.ir. T. Keviczky

Readers:

ir. P. Ritzen

Abstract

This is an abstract

Acknowledgements

I would like to thank my supervisors dr.ir. T. Keviczky from DCSC and ir. P. Ritzen from Alten Nederland B.V. for their assistance during the writing of this thesis. I would also ...

Acronyms

DUT Delft University of Technology

Chapter 1

Introduction

This is a L^AT_EXthesis and this is Chapter [1](#). If you want to know more about L^AT_EXyou better read [\[?\]](#). It contains an acronym of the Delft University of Technology ([DUT](#)). The [DUT](#) is our University.

Part I

First Part

Chapter 2

First Real Chapter

This is real chapter for Delft University of Technology ([DUT](#)), ok? I will explain everything about γ . Next, everything will be explained about the transfer function $H(s)$. Also, subscripts and can superscripts can be put in the nomenclature list. Other things can also be added to the nomenclature list of [DUT](#).

2-1 First section

This is the section. Referring to equations, figures and tables can easily be done by the commands `\eqnref{}`, `\figref{}` and `\tabref{}`.

$$H(s) = \frac{1}{s+2} \quad (2-1)$$

You see? Refer to equations like this Eq. ([2-1](#)).

2-1-1 The first subsection

The first sub-subsection with a very very very long title, but in the table of contents one can only see the short title

Nice, ain't it?

A paragraph.

Part II

Second part

Chapter 3

Second part chapter

Figure 3-1: this is a very long line to test if the table of figures will wrap the line or will continue to go over the border of the page

Chapter 4

**TEMP second part chapter this is a
very long line to test if the table of
figures will wrap the line or will
continue to go over the border of the
page**

New chapter gives a full acronym Delft University of Technology ([DUT](#)).

$$1 = 2 \tag{4-1}$$

$$x = 5 \tag{4-2}$$

$$y = \theta \tag{4-3}$$

TEMP second part chapter this is a very long line to test if the table of figures
12 will wrap the line or will continue to go over the border of the page

Chapter 5

Second second part chapter

This is a test for nomenclature $A(s)$

Bibliography

Appendix A

The back of the thesis

A-1 An appendix section

A-1-1 An appendix subsection with C++ Listing

```
// 1
// C++ Listing Test
//
#include <stdio.h>
for(int i=0;i<10;i++)
{
    cout << "Ok\n";
}
6
```

A-1-2 A MatlabListing

```
%
% Comment
%
n=10;
for i=1:n
    disp('Ok');
end
5
```

Appendix B

Yet another appendix

B-1 Test section (again?)

Ok, all is well.
